Turn off your taps on
22 October 5pm – 10pm
and join us in improving
water knowledge

TAP PAUSE LEVEL UP

Water Saving Hacks

1. Keep showers to 4 minutes or less.
2. Keep a bucket in the shower to capture water to use on your garden.
3. Turn off taps when washing your hands.
4. Fix dripping taps.
5. Always use a full load with dishwashers and washing machines.
6. Fix leaking toilets – take our ***#LeakyLooChallenge***.
7. Reduce flushing at night: if it's yellow, let it mellow; if it's brown, flush it down.
8. Share these water-saving hacks with your friends and family online! ***Be sure to follow us at @waterwiseuk and use #WaterNightUK. Register for Water Night!***
9. Encourage your friends to sign up and start a discussion about water conservation!
10. Take action and pledge to implement smart water practices in your life.
